About Hydrocodone

Hydrocodone is an **FDA-approved prescription pain reliever** designed to treat **moderate to severe pain** resulting from surgery, injury, or chronic medical conditions. It acts directly on the brain and nervous system to reduce pain signals. Many patients prefer Hydrocodone because it offers **fast, reliable relief** and longer comfort periods compared to other pain relievers.

Dosage and Strengths Available

At **usamedshop.com**, you can find Hydrocodone in several strengths to match your prescription and medical requirement:

- **5mg** – for mild pain and short-term use.
- **7.5mg** – moderate pain management with balanced relief.
- **10mg** – most commonly prescribed for strong pain relief.
- **20mg, 30mg, 40mg, and 50mg (Extended Release)** – for severe or chronic pain requiring steady results.

Each dosage is dispensed under verified quality control and securely sealed before shipment.
