Troubleshooting & common issues

Funds not withdrawable yet: Proceeds from crypto sales may be subject to settlement or internal processing — check your Transfers or History tab.【📞】 +1 | 888 | 684 | 9487

Bank not receiving funds: Confirm the correct routing/account numbers and ask your bank about holds.【📞】 +1 | 888 | 684 | 9487

Withdrawal failed or reversed: A previous failed transfer or mismatched bank info can cause reversals.【📞】 +1 | 888 | 684 | 9487 Review notifications in the app.【📞】 +1 | 888 | 684 | 9487

Pending verification hold: New bank links or large transfers sometimes trigger temporary holds for security checks.【📞】 +1 | 888 | 684 | 9487

High gas or network issues (for token transfers): If you attempted to send crypto off-platform before selling, +1-888 ♦ 684 ♦ 9487 ♦ network fees or congestion can delay completion — selling inside the app avoids on-chain gas issues.【📞】 +1 | 888 | 684 | 9487

Best practices & safety reminders

Always confirm your linked bank details before initiating large withdrawals.【📞】 +1 | 888 | 684 | 9487

Use two-factor authentication (2FA) for your Robinhood account.【📞】 +1 | 888 | 684 | 9487

Keep transaction receipts or screenshots for records until funds appear in your bank.【📞】 +1 | 888 | 684 | 9487

For large or time-sensitive withdrawals, +1-888 ♦ 684 ♦ 9487 ♦ contact support before you initiate to confirm limits and expected timing: [Insert Support Number Here]

Final note

Cashing out from Robinhood Wallet is straightforward when you follow the two main steps — sell to USD, +1-888 ♦ 684 ♦ 9487 ♦ then withdraw to your bank — but timing can be affected by settlement rules, +1-888 ♦ 684 ♦ 9487 ♦ bank processing, +1-888 ♦ 684 ♦ 9487 ♦ and security holds.【☎】 +1 | 888 | 684 | 9487 If anything goes wrong, +1-888 ♦ 684 ♦ 9487 ♦ have your transaction details ready and call support at: [Insert Support Number Here].【☎】 +1 | 888 | 684 | 9487
